A PHYSICIAN TESTIFIES.

"I have taken Kodol Dyspepsia Cure and have never used anything in my life that did me the good that did," says County Physician G. W. Scroggins of Hall county Ga. "Being a physician I have prescribed it and found it to give the best results." If the food you eat remains undigested in your stomach it decays there and poisons the system. You can prevent this by digesting, but that means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer from neither dyspepsia nor starvation. The worst cases quickly cured. Never fails. H. L. Jones.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.
